Re: Associate, Strategic Finance

Dear Uber Strategic Finance Team,

I'm applying for the Associate, Strategic Finance role at Uber in New York. I'm an MBA Finance (STEM) candidate at Fordham Gabelli, and before that I worked at JPMorgan Asset Management, Lenovo and Thomson Reuters. I'm interested in Uber because strategic finance there sits close to big operating decisions across a lot of businesses, and that's the kind of finance work I want to do.

At Lenovo I spent two years as a Senior Business Analyst, building forecasts and scenario analyses that improved capital efficiency by 15% and running variance and sensitivity analyses on budget reallocation. At JPMorgan Asset Management I worked as a consultant on marketing-channel budget allocation, built models to evaluate $10M in spend, and prepared executive-level briefs for senior leadership.

That maps to building the forecast, pressure testing plans with business partners, and helping decide where money should go. I'm comfortable turning a messy question into a clear model and a short recommendation. I'd welcome the chance to talk.

Sincerely,
Sam Dasgupta
