Re: Senior Financial Analyst, eReader

Dear Amazon Devices Finance Team,

I'm applying for the Senior Financial Analyst role supporting the eReader product line at Amazon. I'm an MBA Finance (STEM) candidate at Fordham Gabelli, and before that I worked at JPMorgan Asset Management, Lenovo and Thomson Reuters. I'm interested because the role covers the full product line, from operating plans and near-term forecasts to the financial view on future products.

At Lenovo I spent two years as a Senior Business Analyst, building forecasts and scenario analyses that improved capital efficiency by 15% and running variance and sensitivity analyses on budget reallocation. At Thomson Reuters I supported monthly P&L forecasting, variance analysis and close for the ANZ region, and streamlined the order-to-cash process with automation, cutting the cash conversion cycle by 20%.

That maps to the operating plan, forecasts and the push to automate and simplify controllership work on your team. I'd welcome the chance to talk.

Sincerely,
Sam Dasgupta
